and serious buyers would attend the shows at respective venues.

"On behest of the PATA UK Chapter, who had extended support and co-operation for our roadshows, we had appointed a private consultant in this edition of roadshows. The consultant will ensure among other things that only quality and serious players keen on the India market attend the roadshows at respective centres," said **Kabir Vasudeva**, Executive Director, PATA India Chapter.

"We are confident that on an average, there will be 80-100 quality buyers at all the roadshows, which we will try to ensure meet all the members of the Indian delegation," he added.

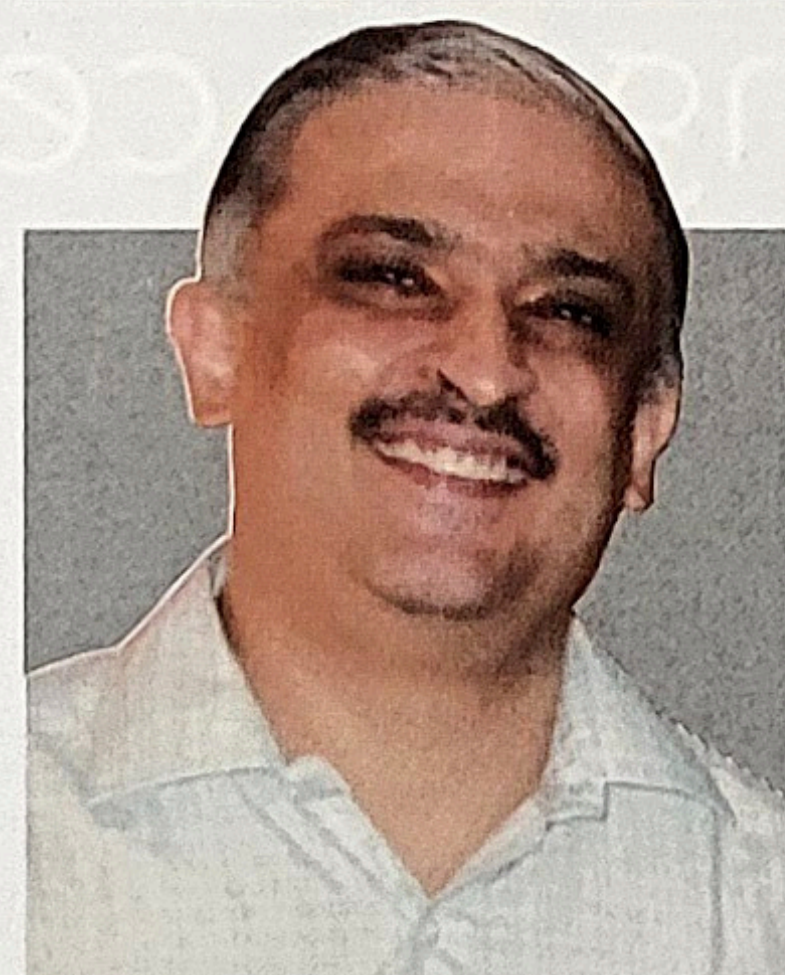

The format of the roadshows will stay power packed and will include serious B2B sessions, destination India presentations, India evening, free flow of workshops and other events.

"There will be powerful B2B sessions followed

by a reception in the evening at all the roadshows. At the Indian evening, there will be a brief presentation on destination India followed by engaging cultural events, Indian dinner and a raffle draw," said Vasudeva. 🍷
