

social networking session in real time

network talk

It is time for all the skyppers, facebookers, twitters, snail mailers, googlers from our industry and believers in virtual social networking to finally step out and meet the people face to face! TRAVTALK brings the industry together every month on a Monday for an evening of fun, laughter and conversation over cocktails and snacks (Network Talk). The third such event, on July 2 was sponsored by The Suryaa, New Delhi. Drinks and snacks flowed through the evening amidst the crowd that is growing larger every time. We had a great turn out, with one and all appreciating the wonderful networking opportunity to meet old friends and make new acquaintances.

brings the travel trade together
